Experience:		
Freelancer – Recent works		
HTML and pure CSS website (For demonstrating proficiency in these two languages alone)		
<ul style="list-style-type: none"><li><a href="https://nagfx.github.io/portfolio-website/">https://nagfx.github.io/portfolio-website/</a></li></ul>		
ToDo List application built in HTML/CSS/JS/Bootstrap stack		
<ul style="list-style-type: none"><li><a href="https://nagfx.github.io/todolistwebapp/">https://nagfx.github.io/todolistwebapp/</a></li></ul>		
Airbnb front page clone made with Tailwind		
<ul style="list-style-type: none"><li><a href="https://nagfx.github.io/airbnb-clone/">https://nagfx.github.io/airbnb-clone/</a></li></ul>		
Digital store built with HTML, Bootstrap, JQuery, CSS and PHP. Checkout and superuser system is incomplete.		
<ul style="list-style-type: none"><li><a href="https://github.com/nagfx/digital-store">https://github.com/nagfx/digital-store</a> (Can’t be deployed on Github servers so the code is there you can host &amp; run)</li></ul>		
Task Management dashboard application		
<ul style="list-style-type: none"><li>Built a 2-page application <a href="https://whimsical-pasca-379c2c.netlify.app/">https://whimsical-pasca-379c2c.netlify.app/</a> using React.js framework, it allows you to add, delete, and search tasks</li><li>There is version control implemented by uploading the initial application and updates after mentor sessions were implemented on Github, the commits can be seen. (use login information user: admin password: admin123)</li></ul>		
Basic Inventory application in Django		
<ul style="list-style-type: none"><li>Built using Django framework added Deep Rest Framework used serializer, nested object to display multiple tables</li><li>Used SQLite, added the relevant models and foreign key setup, then set up the admin panel, added a super user</li><li><a href="https://github.com/nagfx/inventory">https://github.com/nagfx/inventory</a></li></ul>		
KPMG Malaysia - Bandar Utama, Selangor, MY. ITET Intern	Jan - Mar 2022	
I researched, prepared, cleaned and set up documents for KPMG. On instances cleaned data, computed results and put the output in deck for presentation purposes. Worked with my seniors on projects related to big data.		
Big Apple – Kuwait. Sales clerk	2017-2018	
I processed sales data but also voluntarily contributed in tech hardware handling and troubleshooting.
